GIVE YOUR CHILD A BRIGHT FUTURE IN ENGINEERING

Design Solutions for the World's Collisions

*** All New Classes ***

For 2nd and 3rd Graders

JUNIOR EINSTEINS

- Design a car to keep an egg from breaking when it crashes
- Design a park so that when children fall they don't get hurt by the ground
- Determine the best way to catch a water balloon
- Explore collisions
- Use algebra, multiplication, and fractions to solve engineering design problems

Offered from 3- 4 p.m.
Fridays: 4/3, 4/17, 4/24, 5/1, 5/8, 5/15
